bluesign® Approved METALUXE® Fin NATULON®

1. The METALUXE® Fin zipper is one of the METALUXE® zipper product lines.
2. The special element design with an extended fin provides higher strength, making it favorable for bag applications. It prevents the slider from snagging the fabric and the elements from coming off. The slider runs on the fins and protects the tape from abrasion.
3. bluesign® approved items (code: BN-ANTI) are cost neutral with standard items.

RECOMMENDED APPLICATIONS

Sports/Outdoor apparel, casual, bags

VISLON® AquaGuard® NATULON® with Bridge Top Stop

1. YKK's new bridge top/bottom stop creates additional water repellency by eliminating the gap between the VISLON® AquaGuard® zipper elements and the top/bottom stop, eliminating the need for a zipper garage on the garment, making the garment look clean and providing a tactile feel when closing the zipper.

RECOMMENDED APPLICATIONS

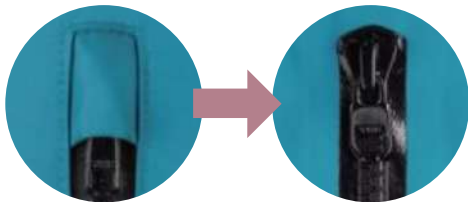

Sports/Outdoor apparel, casual

COLOR VARIATIONS

Chain: Global Color Card

Top/Bottom stop: black

Enhances water repellency
and achieves a sleek look.

CARE INFORMATION

There are two types of bottom stops, and the standards for measuring zipper dimensions differ depending on the type of the bottom stop. Please refer to the QR code for details.

VISLON® Slim NATULON®

1. YKK's softest, lightest & most packable VISLON® zippers, VISLON® Slim is 23% lighter weight than our standard VISLON® zippers. Pair it with a plastic slider to further reduce weight by up to 67%!
2. Recommended for packable garments and lightweight garments.

RECOMMENDED APPLICATIONS

Sports/Outdoor apparel, casual, jacket, uniform

COLOR VARIATIONS

Chain: Global Color Card, DTM

Elements: Global Color Card, DTM, metal colors (6 colors), metallic colors (9 colors)

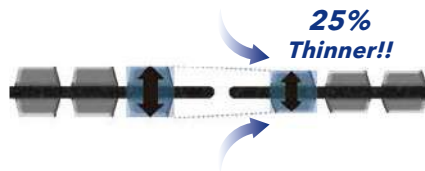

Flexibility

Slim elements and softer tape make the VISLON® Slim chain 8.5 times softer.
* YKK original test method based on JIS-L-1096 8.21.4 (Heart loop method)

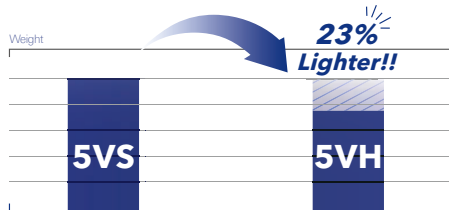

Low Profile

Zipper elements are 25% thinner.

Lightweight

Zipper chain weight is 23% lighter.

Low Profile Slider

1. This slider has a minimal design with crowns and pullers removed.
2. Cord pullers can be attached through the hole at the diamond of the slider body. By removing the crowns and pullers, the slider is about 56% lighter and 55% thinner than normal slider (slider code: 3C DW2W).
3. Recommended for use in garments with reversible function or packable pockets.

RECOMMENDED APPLICATIONS

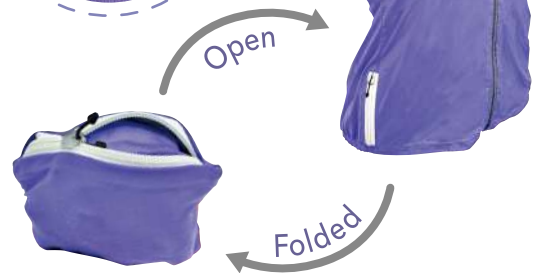

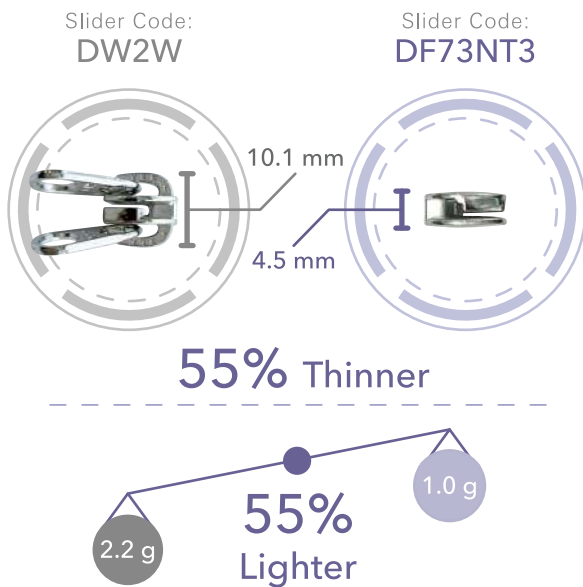

Sports/Outdoor apparel, casual

Threaded cord of your choice (up to Ø 1.5 mm).

COLOR VARIATIONS

Slider body: plating and enamel
