

AquaGuard® NATULON® Coil Zipper with Bridge Top Stop

1. Bridge Top Stop series (code: TS-TIBR) now also available with PFAS compliant water repellent coating. This top stop design not only removes the necessity for a zipper garage on garments but also achieves a sleek and minimalist look. It enhances water repellency and aesthetics by eliminating the gap between coil elements and top stop.

Enhances water repellency and achieves a sleek look.

Zipper length is measured from the top of slider to the end of element/top of bottom stop for VISLON® zippers.
