NATULON Plus® Coil Zipper with Recycled Zinc Semi-auto Lock Slider

1. The body of this slider is made from 100% recycled zinc alloy (**) and can be combined with the NATULON® series to achieve a higher recycled material ratio. The quality is the same as conventional zinc alloy sliders.
 2. The semi-automatic locking type (slider code: ES*) uses recycled zinc alloy for the body and recycled TPU for the puller. Both materials are GRS certified. Other types are available upon request.
- **Some parts may be made from non-recycled materials.

RECOMMENDED APPLICATIONS

Sports/outdoor apparel, casual

COLOR VARIATIONS

Slider finish: plating colors

TPU puller: Global Color Card, DTM*

*Please note that the color of recycled TPU may vary depending on the recycled material. Please confirm the color with the actual sample at the sampling stage.

SLIDER AVAILABILITY

*Other types can be developed upon request.

VISLON® NATULON Plus®

1. The NATULON Plus® zipper features a higher ratio of recycled material by utilizing both recycled tape and elements. The tape of the VISLON® NATULON Plus® zipper is made from 100% post-consumer recycled PET material, while the elements are made from more than 40% post-consumer recycled POM material.

RECOMMENDED APPLICATIONS

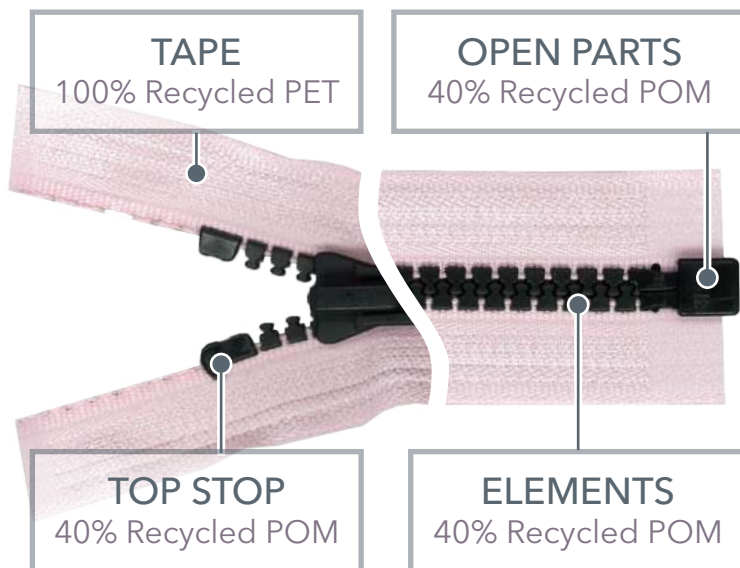

Sports/outdoor apparel, casual

NATULON Plus® Coil Zipper with Super Light Weight Tape No.5 Open End

1. NATULON Plus® zipper is made from 100% post-consumer recycled material. The tape, teeth, cord and sewing thread are made from post-consumer recycled PET.
2. The chain weight of this item in No.5 is about 77% of our standard No.5 coil zipper chain (code: 5CI PB16).

RECOMMENDED APPLICATIONS

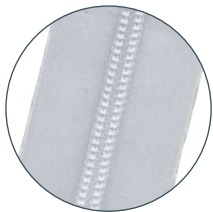

Sports/outdoor apparel, casual

COLOR VARIATIONS

Chain: white (#501) and black* (#580)

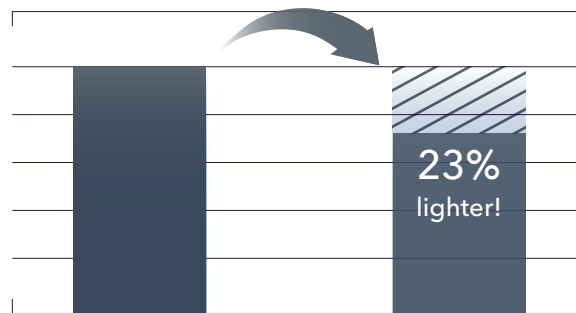

*Other colors are currently under development.

AquaGuard® NATULON® Coil Zipper with Precise Fit Slider

1. This slider features a longer body compared to the standard slider (slider code: DFB) for a more secure fit. By incorporating special sewing techniques and optimized garment designs, our slider effectively bridges the gap between the zipper and the fabric.

*Please note that the slider itself does not have inherent water repellency.

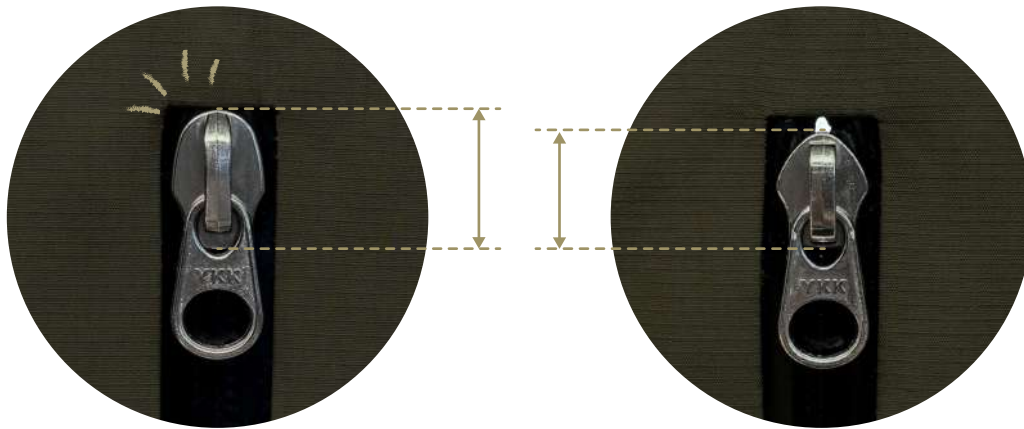

RECOMMENDED APPLICATIONS

Sports/outdoor apparel, casual

COLOR VARIATIONS

Slider finish: plating and enamel

Precise fit slider

Racquet Coil Zipper with Hot Melt PU Laminated Tape

1. This product is laminated with PU film using hot-melt technology. The hot-melt adhesive is a solid adhesive at room temperature, primarily composed of thermoplastic polymers.
2. The hot melt adhesive reduces the use of water and organic solvents and provides a softer and smoother appearance than a traditional zipper.

RECOMMENDED APPLICATIONS

Luggage, bags

Backpack

Travel Luggage

COLOR VARIATIONS

Dyed chain laminated with matt transparent film:

Global Color Card, DTM, excluding black color (black color is available in solution dyed black chain laminated with black PU film (code: RCAPUR))

Revived Replacement Slider

1. A broken slider can mean the end of a garment's lifecycle. To aid in this repair process, YKK has designed a replacement slider that can be assembled to an existing zipper on a product, with no special tools required. The ability to quickly repair a zipper contributes to the longevity of garments lifecycle. Double-sided version (code: 3CF DW63) is also available now.
2. Quick slider attachment simplifies the repair/replacement process. Sold for repair/replacement only, cut zippers will not be available.

RECOMMENDED APPLICATIONS

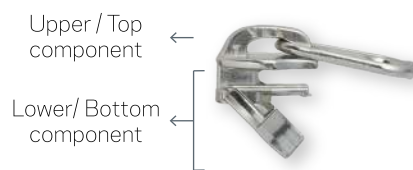

Sports/outdoor apparel, casual

COLOR VARIATIONS

Upper/Top component: plating (excluding matte silver (code: C6)) and enamel (excluding matte and fluorescent colors)

Lower/Bottom component: silver (code: C5)

Code: 3C DF63BY747

Cord pullers should be attached after assembly.

*Close-end only. Available with 3CZT8/10 chain or 3CZT8/10 with bridge topstop.

Side-release Buckle (Item Code: LB-DX)

1. The wide opening of the buckle makes it easy to release, and the narrow release stroke with the Vertical Engagement System leads to a soft release.
2. The 38 mm buckle is equipped with a break-resistance spring to reduce accidental breakages.
3. Streamlined and technological design.
4. The tensile strength of this buckle is higher than our normal side-release buckles.

RECOMMENDED APPLICATIONS
