■ NATULON Plus® with PET/PBT Open Parts

As awareness of sustainability grows, the apparel industry is also seeking designs that take garment recycling into account as part of efforts toward a circular society. In particular, there is a strong demand for using only PET as a material to avoid the need for sorting during recycling, and we are promoting the use of PET zippers for polyester recyclers.

YKK Vietnam Product

■ AquaGuard® Water-based Coil Zipper

This product has a high-end matte finish and a flat appearance. PU film color variations will help customers to customize color combinations with their garments.

By adopting water-based PU resin systems in production, we can reduce carbon emissions compared to conventional organic solvent-based PU systems. This positions the item as a more eco-friendly PU zipper with a key focus on sustainability.

Lightweight & Packable

■ NATULON Plus® Coil Zipper with Super Light Weight Tape

The NATULON Plus® Zipper with Super Light Weight Tape features a higher ratio of recycled material by utilizing both recycled tape and elements. The NATULON Plus® zipper has the highest level of recycled material offered by YKK and can be further increased by pairing with a recycled diecast zinc slider. The tape weight is only about 38% of our standard No.3 coil zipper tape. This item is recommended to be paired with nylon sliders to achieve the light weight wearing experience of the garment.

ASEAN FTC Product

■ Coil Zipper with Fold-over Tape

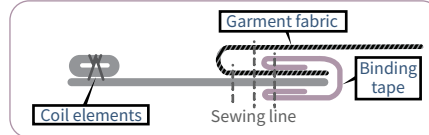

The fold-over zipper effectively reduces sewing costs. It reduces sewing man hours and reduces thickness in the finished product by placing a binding structure in the tape section, thus providing a tape folding function in the sewing process.

The tape of this product is made of recycled materials.

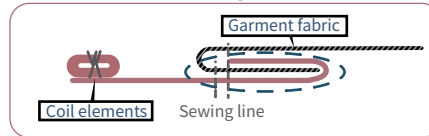

△ Standard tape + binding tape

Garment become thick

ASEAN FTC Product

■ AiryString®

The AiryString® tapeless zipper is designed for elements to be sewn directly onto fabric by a special machine. By eliminating the zipper tapes, the AiryString® zipper offers more flexibility and weight reduction of the final product, in turn allowing for more design possibilities.

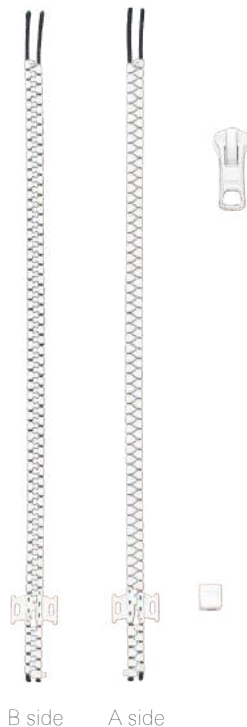

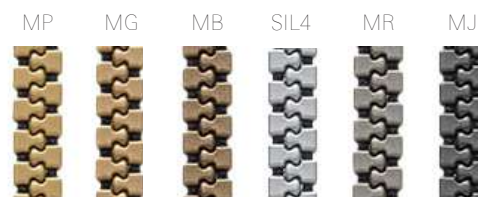

Compared to standard zippers, the AiryString® tapeless zipper produces less greenhouse gas emissions during production.

YKK will work together with customers to incorporate this unique and revolutionary zipper into their products as all parts for the zipper are supplied by YKK and require a special sewing machine.

Zipper with Puckering Resistant Lightweight Tape

The zipper with puckering resistant tape features tape-weaving technology that is designed to reduce puckering of the zipper that can occur from shrinkage after garment sewing. With the special tape-weaving technology, puckering is reduced by approximately 50% in all garment and zipper sizes. Due to the tape's higher penetration resistance, a sewing test is recommended before full production.

Sports, Outdoor, Apparel

■ Cord Insert Puller (Item Code: CP0017A)

- Provides easy opening and closing of zippers
- Reduced noise due to soft material
- Cord is firmly attached during injection molding process
- Diameter of cord: 1.5 mm

Color Variations: Global Color Card, DTM

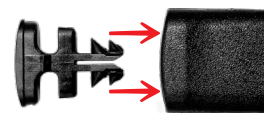

Sports, Outdoor, Apparel

■ Cord End (Item Code: LE03WV2)

- Double cord-end stopper
- Used with a bungee cord
- Available for logo customization
- Diameter of cord: 3mm

Color Variations: Global Color Card, DTM

How to install

Sports, Outdoor, Apparel

■ Cord Stopper (Item Code: WC03WT)

- This product has a thin profile for use around the waist or behind the hood
- Cord lock for two cords
- Easy to operate
- Diameter of cord: 3mm. Can pair with 10mm width tape

Color Variations: Global Color Card, DTM

Sports, Outdoor, Apparel

■ Cord Stopper (Item Code: WC03MS)

- Cylinder-based design with single hole cord stopper
- Compact and easy to operate
- Diameter of cord: 3mm

Color Variations: Global Color Card, DTM

Sports, Outdoor, Apparel

■ Cord Stopper (Item Code: FC02VX)

- Unique locking system enables intuitive operation
- Easy assembly by simply pushing in the plug until it clicks into place. No spring inside
- Once it is assembled, it will not be able to take a part
- Recommended cord diameter: 1.8 mm – 2.0 mm

Usage Reference

Color Variations: Global Color Card, DTM

Luggage & Backpack

■ Side-release Buckle (Item Code: LB16DX)

- The narrow release stroke with the Vertical Engagement System leads to a soft release
- The 38mm buckle is equipped with a break-resistance spring to reduce accidental breakages
- Streamlined and technological design
- The Vertical Engagement System makes the tensile strength of this buckle is higher than our normal side-release buckles

Break-resistance spring of 38 mm buckle

Color Variations: Global Color Card, DTM

Item Availability: 16 / 20 / 25 / 30 / 38 mm

Luggage & Backpack

■ Side-release Buckle (Item Code: LB16DXP)

- The wide opening of the buckle makes it easy to release, and the narrow release stroke with the Vertical Engagement System leads to a soft release
- LB-DX series with piping function

Color Variations: Global Color Card, DTM

Item Availability: 16 mm

Luggage & Backpack

■ Side-release Buckle (Item Code: LB16DXWP)

- The plug adjuster part is a component of the whistle, and the socket part is designed with a piping slider
- Lightweight, streamlined and technological design
- Easy to adjust and reduces web misalignment
- The Vertical Engagement System makes the tensile strength of this buckle is higher than our normal side-release buckles

Color Variations: Global Color Card, DTM

Item Availability: 16 mm

Luggage & Backpack

■ Side-release Buckle (Item Code: LB16LGWP)

- The plug adjuster part is a component of the whistle, and the socket part is designed with a piping slider
- Lightweight design
- Easy to adjust and reduces web misalignment
- The shape of the plug tip prevents incorrect insertion into the socket
- The Vertical Engagement System makes the tensile strength of this buckle is higher than our normal side-release buckles

Special design to prevent incorrect insertion

Color Variations: Global Color Card, DTM

Item Availability: 16 mm

Luggage & Backpack

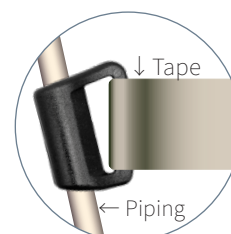

■ Clip (Item Code: LA16DLP)

- Clip on the backpack can be adjusted vertically to fit different users
- It is suitable for trail running vests and backpack
- Diameter of piping: 3.5 mm

Color Variations: Global Color Card, DTM

Item Availability: 16 mm

Usage Reference

Luggage & Backpack

■ Side-release Buckle (Item Code: LB16SWD)

- lightweight design
- The design of the socket makes it easy to release the buckle when wearing gloves
- The socket shape resists cracking, even when stepped on
- Corrugated structure prevents breakage
- Dual adjustment
- The narrow release stroke with the Vertical Engagement System leads to a soft release

Gloves friendly

Color Variations: Global Color Card, DTM

Item Availability: 10 / 16 mm

Luggage & Backpack

■ Cord Stopper (Item Code: LC03VXT)

- Wedge-shape design, no springs are used
- The stopper can be easily loosened by simply gripping and pulling with one hand
- Diameter of cord: 2-3 mm

Usage Reference

Color Variations: Global Color Card, DTM

Luggage & Backpack

■ Side-release Buckle (Item Code: LB20ET)

- There is a push lever at socket both side so it is easy to release even with gloves.
- Flexible plug provides durability and resistance to breakage.

Color Variations: Global Color Card, DTM

Item Availability: 20 mm

Luggage & Backpack

■ Side-release Buckle (Item Code: LB20NKQ)

- Swivel buckle for 360-degree rotation.
- Single-handed operation and horizontal engagement.

Color Variations: DTM

Item Availability: 20 mm

360-degree rotatable

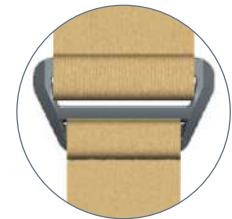

Luggage & Backpack

■ Strap Adjuster (Item Code: LK38NKW)

- Compact and lightweight design
- Allow 38 mm tape and 32 mm tape to pass through

Color Variations: Global Color Card, DTM

Item Availability: 38 mm

Usage Reference

Luggage & Backpack

■ Side-release Buckle (Item Code: FB20UT)

- Extra thin design
- The shape of the plug tip prevents incorrect insertion into the socket
- The thickness of this product is only 4.8mm

Color Variations: Global Color Card, DTM

Item Availability: 20 mm

4.8 mm

SNAP & BUTTON

■ SOFIX®/SOFIX® NATULON Plus®

P32

SNAP & BUTTON

■ SOFIX®/SOFIX® NATULON Plus®

The SOFIX® snap fastener is an innovative product that incorporates plastic snaps injected onto the tape. The plastic snaps are injection molded onto the tape, ensuring secure attachment. No attaching machines or attaching dies are required. SOFIX® is OEKO-TEX® certified.

The tape can be selected from a wide variety of colors, and color specifications are available for both the snap and the tape. The knitted tape is designed for a soft feel.

The tape of SOFIX® NATULON® is made of post-consumer recycled PET, the same material used for NATULON® zippers. The use of the SOFIX® NATULON® reduces the environmental impact caused by plastic bottles.
