

FOLD-OVER

TAPE ZIPPER

Can be
folded

YKK™

Little Parts. Big Difference. >>>

REDUCE TOTAL GARMENT THICKNESS*

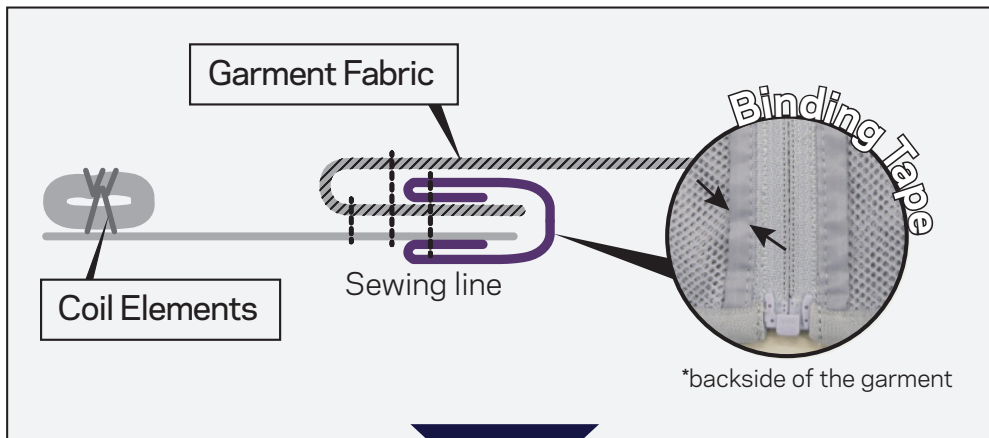

Item Introduction

*The fold-over tape zipper effectively reduces sewing costs. It reduces sewing man hours and reduces thickness in the finished product by placing a binding structure in the tape section, thus providing a tape folding function in the sewing process.

Development Background

1 Standard Tape + Binding Tape

garment become thick

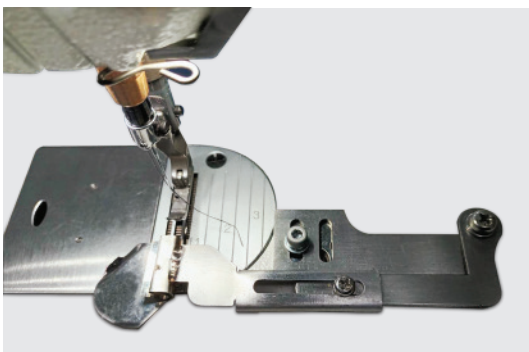

Improved

2 Fold-over Tape

reduces the thickness of the garment!

Introduce Sewing Jig

- Additionally, sewing steps can be reduced and simplified with the use of YKK's original jig tool.
- A sewing test is recommended prior to adopting this zipper in bulk. Please contact your local YKK staff for more details.
- The recommended fabric thickness is 0.01mm to 0.9mm (sewing with YKK jig).
